

Create Your Own Planet

Globe Construction Activity

Directions:

- 1. Fill out the Imaginary Planet Legend Sheet.**
- 2. Draw and color your oceans, continents, forests, mountains, and roads on the white globe gores above.**
Important: To connect lines between the gores, draw only straight horizontal lines on the gray space in between.
- 3. Cut out the gores and paste them around a 10-inch circumference sphere.**
Important: Make sure to not cut all the way between the gores. The gores should still be connected in the center.
